- Hospitals
- Schools
- Nursing Homes
- Business
- Gyms

NVL-2

DISINFECTANT CLEANER & VIRUCIDE

DIRECTIONS:

1. To disinfect inanimate hard non-porous surfaces, add 2 ounces of NVL-2 disinfectant cleaner per gallon of water.
2. Apply solution with any of the following: Mop, Cloth, Sponge and Sprayer.
3. Allow to remain wet for 10 minutes, then remove excess liquid.

CAUTION:

If using sprayer, do not breathe mist.

NVL-2 features a neutral pH while still providing the cleaning strength to fight COVID-19. This no-rinse cleaner ensures thorough kill-time when left on surfaces for at least 10 minutes. Keep your business safe and rest assured no damage to your high-gloss floors or finishes, thanks to our phosphate free disinfectant.
